JUL 10 1980

Clint Whitney, Executive Director  
State Water Resources Control Board  
P.O. Box 100  
Sacramento, CA 95801

DIVISION OF OIL & GAS  
SACRAMENTO

24 JUN 1980

Dear Mr. Whitney:

As you may know, the consolidated permit regulations (CFR 122, 123 and 124) deal in part with the administrative structure of the Underground Injection Control (UIC) program and were published in the Federal Register on May 19, 1980. The UIC technical regulations (CFR 146) are scheduled to be promulgated by early in June. The EPA Office of Drinking Water, Washington, D.C., has scheduled a briefing program for state officials and regional office personnel to provide an overview of the regulations and to respond to questions.

You are invited to attend the briefing which is scheduled for August 7, 1980 at 9:00 a.m. in the Hawaii Room on the 6th floor in the Region IX office at 215 Fremont Street, San Francisco, California. The briefing should be informative and give you an opportunity to become familiar with this important new program. I urge you to attend.

A tentative agenda for the briefing is attached. Please contact me at (415) 556-0893 if you have any questions.

Sincerely yours,
